Global Initiative for Industrial Safety (GIFIS)

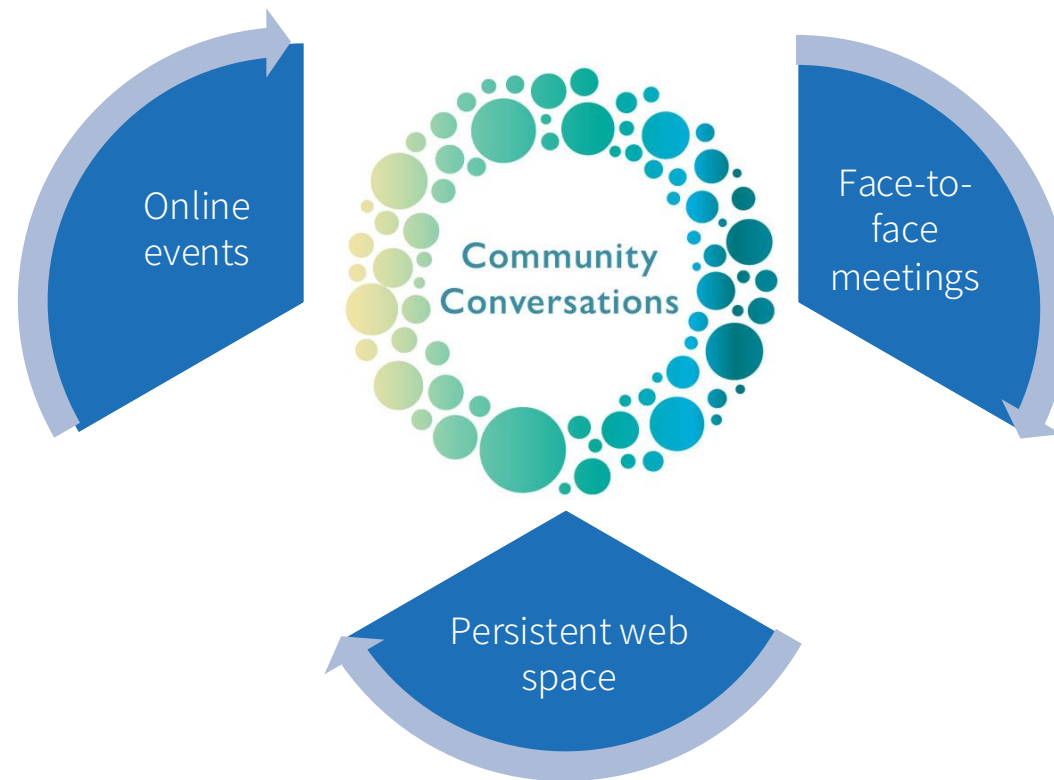

Community Engagement Programme

June 2025

Our Approach

- GIFIS aims to create a “**sense of place**” in the minds of community members through a combination of **face-to-face meetings**, **live online events**, and collaboration over time within a **persistent web environment**.

Community Engagement Programme

Mission Statement: Our mission is to create a global, collaborative platform enabling stakeholders from industry, academia, government, and civil society to share experiences, knowledge, and data on the safe adoption and implementation of emerging industrial technologies, ensuring safer, healthier workplaces worldwide.

Audience: Industry professionals and safety managers, academics and researchers in industrial safety and technology, government regulators and policymakers, technology providers and innovators, NGOs and civil society organisations focused on workplace safety.

In-Country Safety Pilot Programme Goals: To partner with large multinational and national companies in developing countries to promote the benefits of adopting technology-based safety solutions focused on: **1) preventing falls from height;** and **2) reducing vehicle-pedestrian collisions.**

Safety Technology Examples (1)

For Falls from Height:

- Smart helmets with fall detection sensors
- IoT harness systems with GPS and auto-locks
- Wearable sensors to detect edge proximity and fatigue
- Drones for scaffolding and roof inspections

Safety Technology Examples (2)

For Vehicle-Strike Incidents:

- Proximity alert systems for forklifts/trucks (AI + radar)
- Wearables with geofencing for workers in danger zones
- AI-powered CCTV to detect unsafe crossing or loading behaviour

Community Engagement Programme

ANNUAL ACTIVITIES

Quarterly Virtual “How-to-Sessions”

Topic-specific discussions featuring expert presentations and case studies to demonstrate best practices and emerging technologies.

Interactive Q&A sessions to address specific challenges from members.

International Safety Conferences

Calendar of events of global industrial safety and networking opportunities.

Annual Reports and Explainers

Sharing lessons learned and success stories from members, providing valuable insights and best practices to the wider safety community.

Interactive Online Platform

Regularly updated repository of resources, case studies and research.

Community forums and collaborative spaces for ongoing dialogue and knowledge exchange.

MEMBERSHIP BENEFITS

Access to leading expertise and cutting-edge solutions in industrial safety

Visibility as a committed leader in the field of industrial safety

Professional growth through networking and engagement in high-level discussions

Continuous updates and insights into emerging technologies and regulatory trends
